REMARKS

Applicant recognizes with appreciation that Examiner has indicated that Claims 2, 3, 8, 11 – 17 have been allowed and Claim 26 would be allowable if rewritten in independent form and include all the limitations of the base claim and any intervening claims.

In this Amendment, Applicant has cancelled Claims 25 and 27 without prejudice or disclaimer, amended Claim 1, 11, 12, 13 and 26, and added new Claims 28 – 29. Claim 1 has been amended to include the allowed features of Claim 11. Claim 11 has been amended to depend on the allowed Claim 2. Claims 12 and 13 have been amended to proper dependent form. Claim 26 has been rewritten into independent form according to Examiner's suggestion. In addition, Claims 28 and 29 have been added to depend on the allowed Claim 8 to specify different embodiments of the present invention. It is respectfully submitted that no new matter has been introduced by the amended claims. All claims are now present for examination and favorable reconsideration is respectfully requested in view of the preceding amendments and the following comments.

PRIORITY:

The Examiner indicated that no certified copy of the priority document was received in this application. Applicant respectfully submits that the certified copy of the EP 02425455.9 application for the present application was previously submitted on June 27, 2003. Enclosed please find the copies of the stamped postcard, transmittal letter and first page of the priority document showing that the certified copy of the priority document was previously submitted. Although the transmittal letter inadvertently included the phrase "will follow in due course", the certified copy of the priority document -- EP 02425455.9 application -- was in fact submitted together the transmittal letter on June 27, 2003. The stamped postcard clearly indicated that such document was filed. In addition, the Patent Application Information Retrieval (PAIR) system clearly

Appl. No. 10/607,578

shows that the priority document was filed on June 27, 2003. Applicant also encloses a copy of the PAIR image file wrapper for Examiner's reference. Therefore, Applicant respectfully requests the Examiner recognizes the submission of the certified copy of the priority document. However, if the Examiner still cannot locate the document, please contact the undersigned attorney as soon as possible.

REJECTIONS UNDER 35 U.S.C. § 102:

Claims 1, 4 – 7, 9 – 10, 18 – 24 and 27 have been rejected under 35 U.S.C. § 102 (b) as allegedly being anticipated by Nakamura (EP 1,129,861 A1), hereinafter Nakamura.

Applicant traverses the rejection and respectfully submits that the present-claimed invention is not anticipated by the cited reference, because Nakamura does not disclose or teach all the elements of the embodiments of the present invention as presently claimed. More specifically, Claim 27 has been cancelled. The rejection to Claim 27 is moot. In addition, Claim 1 has been amended to include the allowed features of Claim 11. It is respectfully submitted that the triazine compound [0135] of Nakamura is a trialomethyl compound that is different from the triazine compound as defined in the amended Claim 1. Therefore, Claim 1 is allowable. Due to the dependency on Claim 1, Claims 4 – 7, 9 – 10, 18 – 24 are also allowable.

Therefore, the presented claims are not anticipated by Nakamura and the rejection under 35 U.S.C. § 102 (b) has been overcome. Accordingly, withdrawal of the rejections under 35 U.S.C. § 102 (b) is respectfully requested.

REJECTIONS UNDER 35 U.S.C. § 103:

Claim 25 has been rejected under 35 U.S.C. § 103 as allegedly being unpatentable over by Leon et al. (US 6,190,830).

Respectfully submitted,
